

COS20028 – BIG DATA ARCHITECTURE AND APPLICATION LAB WEEK 05

Dr Pei-Wei Tsai (Lecturer, Tutor, and Unit Convenor)
ptsai@swin.edu.au, EN508d

Week 5

Logging

Lab
Task 2

Files and Directories Used in this Exercise

Eclipse project: `logging`

Java files:

`AverageReducer.java` (Reducer from ToolRunner)

`LetterMapper.java` (Mapper from ToolRunner)

`AvgWordLength.java` (driver from ToolRunner)

Test data (HDFS):

`shakespeare`

Exercise directory: `~/workspace/logging`

LOGGING

Description

- In this lab, you'll practice using log4j with MapReduce.
- Modify the Word Count program you built in the *ToolRunner and Passing Parameter* lab so that the Mapper and Reducer log the outputs along the way into the log file.
- Refer to the week 5 lecture slides to make the corresponding changes.
- Use *-Dmapreduce.map.log.level* to set the log level of mappers, e.g.

```
hadoop jar wc_log.jar stubs.WordCount -Dmapreduce.map.log.level=DEBUG Shakespeare.tar.gz wordcount_log
```
