RegxOne Tutorial 1

Try to locate the common patterns of all given strings.

Tip: Try `\.` and `.` to see what are the differences between these two expressions.

Exercise 2: Matching With V

Task	Text
Match	cat.
Match	896.
Match	?=+.
Skip	abc1

Type your pattern

...

Solve the above task to continue

Exercise 2: Matching With W

Match	cat.
Match	896.
Match	?=+.
Skip	abc1

Solve the above task to continue

Exercise 2: Matching With Wildcards

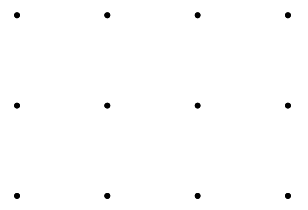

Task	Text
Match	cat.
Match	896.
Match	?=+.
Skip	abc1

([c\d\?]\W|[c\d\?]\w)\.

Continue >

Solve the above task to continue on to the next problem, or read the [Solution](#).

RegxOne Tutorial 2

Try to locate the common patterns of all given strings.

Tip: All texts ends with "og"

Exercise 4: Excluding Character:

Task	Text
Match	hog
Match	dog
Skip	bog

Type your pattern

[^b]og

Solve the above task to continue o

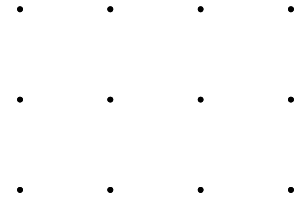

Exercise 4: Excluding Characters

Task	Text
Match	hog
Match	dog
Skip	bog

Continue >

Solve the above task to continue on to the next problem, or read the [Solution](#).

RegxOne Tutorial 3

Try to locate the common patterns of all given strings.

Exercise 8: Matching Optional Characters

Task	Text
Match	1 file found?
Match	2 files found?
Match	24 files found?
Skip	No files found.

[Continue >](#)

Solve the above task to continue on to the next problem, or read the [Solution](#).

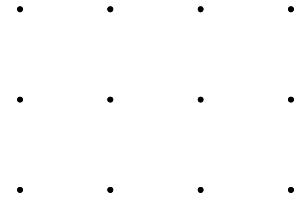

Exercise 8: Matching Optional Characters

Task	Text	
Match	1 file found?	✓
Match	2 files found?	✓
Match	24 files found?	✓
Skip	No files found.	

[Continue >](#)

Solve the above task to continue on to the next problem, or read the [Solution](#).

RegxOne Tutorial 4

Try to locate the common patterns of all given strings.

Exercise 9: Matching Whitespaces

Task	Text
Match	1. abc
Match	2. abc
Match	3. abc
Skip	4.abc

[Continue >](#)

Solve the above task to continue on to the next problem, or read the [Solution](#).

Exercise 9: Matching Whitespaces

Task	Text
Match	1. abc
Match	2. abc
Match	3. abc
Skip	4.abc

[Continue >](#)

Solve the above task to continue on to the next problem, or read the [Solution](#).

RegxOne Tutorial 5

Try to locate the common patterns of all given strings.

Exercise 10: Matching Lines

Task	Text
Match	Mission: successful
Skip	Last Mission: unsuccessful
Skip	Next Mission: successful upon capture of target

[Continue >](#)

Solve the above task to continue on to the next problem, or read the [Solution](#).

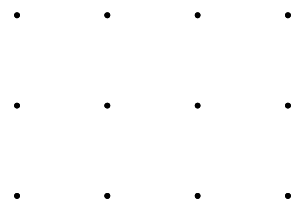

Exercise 10: Matching Lines

Task	Text
Match	Mission: successful
Skip	Last Mission: unsuccessful
Skip	Next Mission: successful upon capture of target

[Continue >](#)

Solve the above task to continue on to the next problem, or read the [Solution](#).

RegxOne Tutorial 6

Try to locate the common patterns of all given strings.

Exercise 11: Matching Groups

Task	Text	Capture Groups
Capture	file_record_transcript.pdf	file_record_transcript
Capture	file_07241999.pdf	file_07241999
Skip	testfile_fake.pdf.tmp	

Type your pattern

Continue >

Solve the above task to continue on to the next problem, or read the [Solution](#).

Exercise 11: Matching Groups

Task	Text	Capture Groups
Capture	file_record_transcript.pdf	file_record_transcript ✓
Capture	file_07241999.pdf	file_07241999 ✓
Skip	testfile_fake.pdf.tmp	

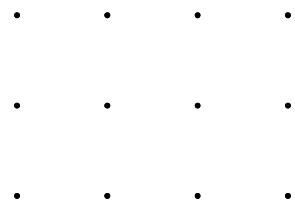

^(file_\w*)\.pdf\$

Continue >

Solve the above task to continue on to the next problem, or read the [Solution](#).

RegxOne Tutorial 7

Try to locate the common patterns of all given strings.

Exercise 12: Matching Nested Groups

Task	Text	Capture Groups	
Capture	Jan 1987	Jan 1987	1987
Capture	May 1969	May 1969	1969
Capture	Aug 2011	Aug 2011	2011
Type your pattern		Continue >	

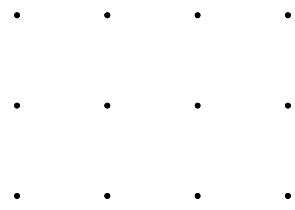

Solve the above task to continue on to the next problem, or read the [Solution](#).

Exercise 12: Matching Nested Groups

Task	Text	Capture Groups	
Capture	Jan 1987	Jan 1987	1987
Capture	May 1969	May 1969	1969
Capture	Aug 2011	Aug 2011	2011
^(\\w{3}\\s(\\d+))\$		Continue >	

Solve the above task to continue on to the next problem, or read the [Solution](#).

RegxOne Tutorial 8

Try to locate the common patterns of all given strings.

Exercise 13: Matching Nested Groups

Task	Text	Capture Groups	
Capture	1280x720	1280	720
Capture	1920x1600	1920	1600
Capture	1024x768	1024	768

[Continue >](#)

Solve the above task to continue on to the next problem, or read the [Solution](#).

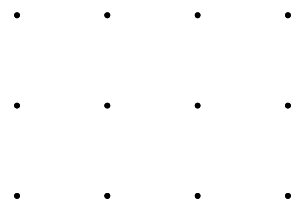

Exercise 13: Matching Nested Groups

Task	Text	Capture Groups	
Capture	1280x720	1280	720
Capture	1920x1600	1920	1600
Capture	1024x768	1024	768

[Continue >](#)

Solve the above task to continue on to the next problem, or read the [Solution](#).

RegxOne Tutorial 9

Try to locate the common patterns of all given strings.

Exercise 14: Matching Conditional Text

Task	Text
Match	I love cats
Match	I love dogs
Skip	I love logs
Skip	I love cogs

[Continue >](#)

Solve the above task to continue on to the next problem, or read the [Solution](#).

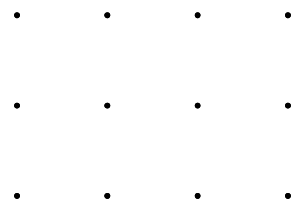

Exercise 14: Matching Conditional Text

Task	Text	
Match	I love cats	✓
Match	I love dogs	✓
Skip	I love logs	
Skip	I love cogs	

[Continue >](#)

Solve the above task to continue on to the next problem, or read the [Solution](#).

RegxOne Tutorial 10

Try to locate the common patterns of all given strings.

Exercise 15: Matching Other Special Characters

Task	Text
Match	The quick brown fox jumps over the lazy dog.
Match	There were 614 instances of students getting 90.0% or above.
Match	The FCC had to censor the network for saying &\$#@!.

[Continue >](#)

Solve the above task to continue on to the next problem, or read the [Solution](#).

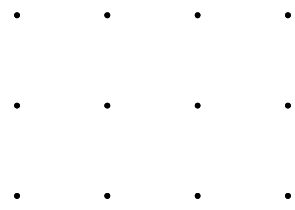

Exercise 15: Matching Other Special Characters

Task	Text	
Match	The quick brown fox jumps over the lazy dog.	✓
Match	There were 614 instances of students getting 90.0% or above.	✓
Match	The FCC had to censor the network for saying &\$#@!.	✓

[Continue >](#)

Solve the above task to continue on to the next problem, or read the [Solution](#).

RegxOne 11

Try to locate the common patterns of all given strings.

Exercise 1: Matching Numbers

Task	Text
Match	3.14529
Match	-255.34
Match	128
Match	1.9e10
Match	123,340.00
Skip	720p

Cont

Solve the above task to continue on to the next problem, or read the [Solution](#).

Exercise 1: Matching Numbers

Task	Text
Match	3.14529
Match	-255.34
Match	128
Match	1.9e10
Match	123,340.00
Skip	720p

Continue >

Solve the above task to continue on to the next problem, or read the [Solution](#).

A 3x4 grid of dots, consisting of 12 dots arranged in 3 rows and 4 columns.

Exercise 2: Matching Phone Numbers

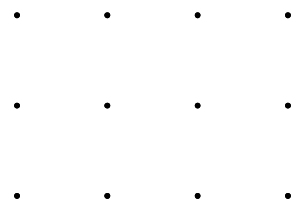

Task	Text	Capture Groups
Capture	415-555-1234	415 ✓
Capture	650-555-2345	650 ✓
Capture	(416)555-3456	416 ✓
Capture	202 555 4567	202 ✓
Capture	4035555678	403 ✓
Capture	1 416 555 9292	416 ✓

Continue >

Solve the above task to continue on to the next problem, or read the [Solution](#).

RegxOne 13

Try to locate the common patterns of all given strings.

Exercise 3: Matching Emails

Task	Text	Capture Groups
Capture	tom@hogwarts.com	tom
Capture	tom.riddle@hogwarts.com	tom.riddle
Capture	tom.riddle+regexone@hogwarts.com	tom.riddle
Capture	tom@hogwarts.eu.com	tom
Capture	potter@hogwarts.com	potter
Capture	harry@hogwarts.com	harry
Capture	hermione+regexone@hogwarts.com	hermione

Type your pattern

Continue >

Solve the above task to continue on to the next problem, or read the [Solution](#).

Exercise 3: Matching Emails

Task	Text	Capture Groups
Capture	tom@hogwarts.com	tom ✓
Capture	tom.riddle@hogwarts.com	tom.riddle ✓
Capture	tom.riddle+regexone@hogwarts.com	tom.riddle ✓
Capture	tom@hogwarts.eu.com	tom ✓
Capture	potter@hogwarts.com	potter ✓
Capture	harry@hogwarts.com	harry ✓
Capture	hermione+regexone@hogwarts.com	hermione ✓

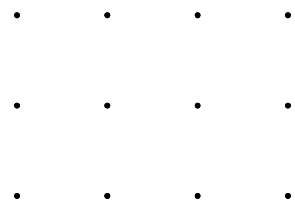

`^(\w+\.?\.?\w*)`

Continue >

Solve the above task to continue on to the next problem, or read the [Solution](#).

RegxOne Problem 14

Try to locate the common patterns of all given strings.

Exercise 4: Capturing HTML Tags

Task	Text	Capture Groups
Capture	<a>This is a link	a
Capture	Link	a
Capture	<div class='test_style'>Test</div>	div
Capture	Hello world	div

Continue >

Solve the above task to continue on to the next problem, or read the [Solution](#).

Exercise 4: Capturing HTML Tags

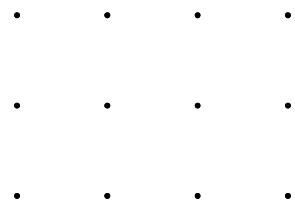

Task	Text	Capture Groups
Capture	<a>This is a link	a ✓
Capture	Link	a ✓
Capture	<div class='test_style'>Test</div>	div ✓
Capture	Hello world	div ✓

Continue >

Solve the above task to continue on to the next problem, or read the [Solution](#).

RegxOne 15

Try to locate the common patterns of all given strings.

Exercise 5: Capturing Filename Data

Task	Text	Capture Groups
Skip	.bash_profile	
Skip	workspace.doc	
Capture	img0912.jpg	img0912 jpg
Capture	updated_img0912.png	updated_img0912 png
Skip	documentation.html	
Capture	favicon.gif	favicon gif
Skip	img0912.jpg.tmp	
Skip	access.lock	

Type your pattern Continue >

Solve the above task to continue on to the next problem, or read the [Solution](#).

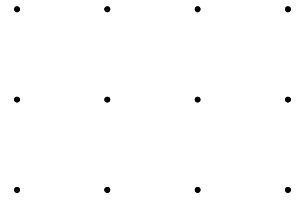

Exercise 5: Capturing Filename Data

Task	Text	Capture Groups
Skip	.bash_profile	
Skip	workspace.doc	
Capture	img0912.jpg	img0912 jpg ✓
Capture	updated_img0912.png	updated_img0912 ✓ png
Skip	documentation.html	
Capture	favicon.gif	favicon gif ✓
Skip	img0912.jpg.tmp	
Skip	access.lock	

Continue >

Solve the above task to continue on to the next problem, or read the [Solution](#).

RegxOne 16

Try to locate the common patterns of all given strings.

Exercise 6: Matching Lines

Task	Text	Capture Groups
Capture	The quick brown fox...	The quick brown fox...
Capture	jumps over the lazy dog.	jumps over the lazy dog.

Type your pattern

Continue >

Solve the above task to continue on to the next problem, or read the [Solution](#).

Exercise 6: Matching Lines

Task	Text	Capture Groups
Capture	The quick brown fox...	The quick brown fox... ✓
Capture	jumps over the lazy dog.	jumps over the lazy dog. ✓

`\s*(\w+\s\w+\s\w+\s\w+\s?\D*)`

Continue >

Solve the above task to continue on to the next problem, or read the [Solution](#).

RegxOne 17

Try to locate the common patterns of all given strings.

Exercise 7: Extracting Data From Log Entries

Task	Text	Capture Groups
Skip	W/dalvikvm(1553): threadid=1: uncaught exception	
Skip	E/(1553): FATAL EXCEPTION: main	
Skip	E/(1553): java.lang.StringIndexOutOfBoundsException	
Capture	E/(1553): at widget.List.makeView(ListView.java:1727)	makeView ListView.java 1727
Capture	E/(1553): at widget.List.fillDown(ListView.java:652)	fillDown ListView.java 652
Capture	E/(1553): at widget.List.fillFrom(ListView.java:709)	fillFrom ListView.java 709

Type your pattern Continue >

Solve the above task to continue on to the next problem, or read the [Solution](#).

Exercise 7: Extracting Data From Log Entries

Task	Text	Capture Groups
Skip	W/dalvikvm(1553): threadid=1: uncaught exception	
Skip	E/(1553): FATAL EXCEPTION: main	
Skip	E/(1553): java.lang.StringIndexOutOfBoundsException	
Capture	E/(1553): at widget.List.makeView(ListView.java:1727)	makeView ListView.java 1727
Capture	E/(1553): at widget.List.fillDown(ListView.java:652)	fillDown ListView.java 652
Capture	E/(1553): at widget.List.fillFrom(ListView.java:709)	fillFrom ListView.java 709

`(\w+)\(\(\([\w\.\ ]+\):(\d+)\)\)` Continue >

Solve the above task to continue on to the next problem, or read the [Solution](#).

`^E/( 1553\):\s{3}at\swidget.List.(\w+)\((ListView.java):(\d+)\)`

RegxOne 18

Try to locate the common patterns of all given strings.

Exercise 8: Extracting Data From URLs

Task	Text	Capture Groups
Capture	ftp://file_server.com:21/top_secret/life_changing_plans.pdf	ftp file_server.com 21
Capture	https://regexone.com/lesson/introduction#section	https regexone.com
Capture	file://localhost:4040/zip_file	file localhost 4040
Capture	https://s3cur3-server.com:9999/	https s3cur3-server.com 9999
Capture	market://search/angry%20birds	market search

Type your pattern

Continue >

Solve the above task to continue on to the next problem, or read the [Solution](#).

Exercise 8: Extracting Data From URLs

Task	Text	Capture Groups
Capture	ftp://file_server.com:21/top_secret/life_changing_plans.pdf	ftp file_server.com 21
Capture	https://regexone.com/lesson/introduction#section	https regexone.com
Capture	file://localhost:4040/zip_file	file localhost 4040
Capture	https://s3cur3-server.com:9999/	https s3cur3-server.com 9999
Capture	market://search/angry%20birds	market search

(\w+):\/\/([\w\-\.\.]+)(:(\d+))?
